

# CCSC Eastern Programming Contest

Saturday, October 19th, 2024

Steve Kennedy (Frostburg State University)

Ian Finlayson (University of Mary Washington)

T.J. Highley (La Salle University)

David Hovemeyer (Johns Hopkins University)

# CCSC

CONSORTIUM FOR  
COMPUTING SCIENCES  
IN COLLEGES

---

*Eastern Region*

JOHNS HOPKINS  
WHITING SCHOOL  
of ENGINEERING

University of  
Mary Washington

# Welcome!

## Contest format (all times EDT)

- 7:30-9:00 am: Programming team registration
- 9:00 am: Orientation and practice session (what you are doing now!)
- 9:30 am: Contest starts
- 12:45 pm: Contest ends
- 1:15 pm: Luncheon and awards presentation

# Contest Rules

- Permitted web sites: go to <https://ccsce.github.io/>
  - **DO NOT VISIT ANY WEB PAGES OTHER THAN THE ONES LINKED FROM HERE!**
  - API references for each language are linked
- You may use your own programming textbooks / language references
- Use of AI tools (e.g., ChatGPT) is not allowed
  - Make sure that AI features in your IDE (e.g. Github Copilot) are disabled
  - Violations will result in disqualification
- Scoring based on ACM ICPC rules
  - Team solving most problems wins
  - If multiple teams solve same number of problems, break tie with penalty points
    - Earlier correct submission → fewer penalty points
    - Fewer incorrect submissions → fewer penalty points

# Contest Server

- Accessible at <http://contest.ccscecontest.com/public>
  - This site is linked from the contest website (<https://ccsce.github.io>)
- The team information sheet that you received when you checked in has your team's login information

# Contest Logistics

- You can use C++ (g++ 7.5.x, C++14 standard), Java (JDK 11), and Python 3
- Your team may use only **ONE** computer! (Unless we have made an accommodation prior to the beginning of the contest)
- Submit using <http://contest.ccscecontest.com/public>
  - You should already be logged in, but if necessary you can log in again using your provided team name and password
- For all problems, read from standard input and write to standard output
- Your program should be a single source file

# What now?

- Work with your team to solve the practice problems!
- We will close the practice session around 9:25 and start the contest at 9:30
- In DOMJudge, you might need to change the contest from the practice contest to the actual contest
  - You might need to refresh your browser

Look at top right of screen, you will see a drop-down where you can choose the contest

Good luck!
